## PROFESSIONAL SUMMARY

---

Results-driven Web Developer with 2+ years of professional experience building responsive, high-performance web applications for agency and enterprise clients. Proficient across the full front-end stack — HTML5, CSS3, JavaScript (ES6+), React, Bootstrap, SCSS, and Tailwind CSS — with deep expertise in pixel-perfect Figma-to-code conversion and Figma Design System architecture. Skilled in implementing GSAP animations, Lenis smooth scrolling, and UX-driven interaction patterns that elevate product quality. Proven ability to collaborate with cross-functional teams, meet sprint deadlines, and deliver scalable, maintainable UI solutions across 10+ client projects.

## WORK EXPERIENCE

---

### Web Developer

Jun 2025 – Present

Webvarad Solutions · Ghansoli, Thane

- Convert Figma designs and complete design systems into pixel-perfect, responsive UIs using HTML5, CSS3, JavaScript, React, and Bootstrap across multiple live client projects.
- Architected and delivered a full Figma Design System — including typography scales, spacing tokens, colour palettes, and a reusable component library — adopted as the team-wide standard.
- Conduct UX research (user-flow mapping, heuristic evaluations) to identify navigation pain-points and drive usability improvements across web products.
- Implement GSAP animation timelines and micro-interactions to produce smooth, premium-feel UI transitions for client-facing applications.
- Optimise JavaScript and CSS for rendering performance, reducing layout-shift issues and improving cross-device load times.
- Serving as a core Web Developer contributor on a large-scale enterprise web platform currently in active production development.

### Web Developer

Jul 2023 – May 2025

DigiHost Solutions · Ghansoli, Thane

- Designed and developed responsive UIs for 10+ client websites from Figma specs using HTML5, CSS3, JavaScript, Bootstrap, and SCSS, achieving consistent cross-browser compatibility.
- Integrated GSAP animations and Lenis smooth scrolling to deliver polished, modern user experiences across all delivered products.
- Diagnosed and resolved UI bugs, refactored legacy CSS, and enforced layout consistency across breakpoints — reducing front-end defect reports by an estimated 40%.
- Collaborated with designers and QA in an Agile workflow to validate implementations, review designs, and ship features within sprint deadlines.
- Maintained mobile-first development standards, ensuring responsive behaviour across 320px to 4K screen widths.

## KEY ACHIEVEMENTS

---

- Built and standardised a full Figma Design System (typography, spacing, colours, components) used by the entire development team at Webvarad Solutions.
- Delivered 10+ production client websites end-to-end as the sole or lead Web Developer within agency timelines.
- Reduced front-end bug reports by ~40% through systematic CSS refactoring and cross-browser QA at DigiHost Solutions.

- Core contributor to an ongoing large-scale enterprise web platform — one of the most complex projects handled in the agency.
- Consistently shipped pixel-perfect Figma implementations across projects with zero major design-deviation rejections from clients.

## TECHNICAL SKILLS

---

**Languages & Frameworks:** HTML5, CSS3, JavaScript (ES6+), React, Bootstrap, SCSS, Tailwind CSS

**UI & Web Development:** Figma-to-Code Conversion, Responsive Web Design, Component-based Architecture, Mobile-First Development, Cross-browser Compatibility

**Design & UX:** Figma Design Systems, UX Research, Style Guides, Typography, Interaction Design, Wireframing

**Animation & Motion:** GSAP (GreenSock Animation Platform), Lenis Smooth Scroll, CSS Transitions & Keyframe Animations

**Tools & Workflow:** Git, GitHub, Browser DevTools, Agile / Sprint-based Development

**Strengths:** UI Performance Optimisation, Attention to Detail, Problem Solving, Design-to-Development Collaboration

## HACKATHON

---

**All India Frontend Competition — Sheryians Coding School (Top 18 Nationally)**

Competed against developers across India in a multi-round frontend challenge. Cleared Round 1 and Round 2 by redesigning a real brand website with custom animations, micro-interactions, and a unique UI touch — finishing in the **Top 18 out of all national participants**.

## EDUCATION

---

**Bachelor of Computer Applications (BCA)**

*Jul 2021*

*North Maharashtra University*
